

Robotics Technology & the Next Frontier in Surgical Care

Hotel Valley Ho (hotelvalleyho.com)
Scottsdale, AZ

Save the dates: Nov. 6 & 7, 2009

This seminar will focus on the advantages of robot-assisted surgery versus traditional open surgery and conventional laparoscopy, as well as future applications of robotics for each surgical discipline. Pioneering experts will discuss advances in the engineering of robotic technology. A combination of educational formats will be utilized to enhance your learning experience including hands-on demonstrations with the da Vinci® surgical system, discussion panels with experts in their respective fields, and case presentations.
